## OKLAHOMA PRESS ELECTRONIC NEWS

If keeping track of what's written about you or your competitor in Oklahoma newspapers is important, we have the solution. Our electronic delivery of news puts you in control of what you want, when you want it.

## SEARCH ON YOUR OWN

Those who choose to conduct their own search will experience the full power of our product with unlimited searches and search terms. It puts you in the driver's seat to search for whatever matters to you - the name of your company, your competitors, similar companies or products, etc. Once you start to monitor the news digitally, you'll discover uses you never imagined.

Results appear as identical replicas of the newspaper page with highlighted search terms. A scaled down version of the page allows you to see how the story appeared in the newspaper. If you want to view the item close up, simply click to download a full-scale PDF.

### SEARCH ON YOUR OWN

**ONE YEAR**  
**\$1,100**

An economical plan for companies or individuals that have a variety of search criteria.
